

To our valued guests:

The safety of our guests and staff is very important to us during these extraordinary times. While the threat level remains low in our Province, there are steps that should be taken to 'flatten the curve' of COVID-19's spread while not sacrificing the social fabric of our society.

We have been monitoring the situation very closely from day one and have amended our already stringent cleaning/sanitizing regimen to reduce the risk to everyone while at Score.

Some examples of this are :

- Sanitizing all common areas (railings, door handles, washroom facilities etc) every 30 mins
- Sanitizing our POS stations every 30 minutes
- Sanitizing all 'per use' items such as payment machines, menus, condiment bottles, salt and pepper shakers etc. after each customer interaction
- Trained and Re-trained staff on proper hand washing techniques - adding additional signage in the washrooms and staff area
- Educating our staff with all updates from local government and adhering to their recommendations and directions

We appreciate your support while the world navigates this situation together and hope to see you very soon.

Jesse Ritchie, Founder - Score On Davie
